

## Green Business Innovator of the Year AWARD WINNER

AstraZeneca 

 MedImmune

MedImmune is the global biologics research and development arm of AstraZeneca, a global, innovation-driven biopharmaceutical business that focuses on the discovery, development and commercialization of small molecule and biologic prescription medicines.

In October 2015, MedImmune led the creation of a bioscience material recovery roundtable to work with local peer companies, the reprocessing industry and end markets to achieve their recycling and sustainable materials management goals in ways that promote a vibrant local circular economy.
