

Small Business Leader of the Year AWARD WINNER

Ben Edson, Founder and CEO, VariQ Corporation

VariQ designs, integrates, manages, and sustains advanced technology systems for government and commercial clients, emphasizing quality and professional excellence in each service delivered. As a successful, privately-held small business, VariQ has grown organically over the past five years by over 1000%.

Founder and CEO, Ben Edson, is a specialist in cybersecurity, systems design and integration, and program management. As a positive-minded and results-driven CEO, his background uniquely complements his drive to deliver technical and secure solutions while fostering lasting, trusted partnerships with industry leaders.
